Suppliers of Capital Equipment to

- Wastewater Industry
- Food Industry

Stone Food Machinery Ltd. is pleased to announce that it has been appointed as the new distributor for the well respected brand **Penstocks.de** family of gates & actuators.

Whatever your sewage requirement there is a penstock gate available to fit your needs. Robust and interference free, Penstocks.de are manufactured in accordance with exacting German standards. Delivered in a wide variety of materials and sizes (from DN 150 to DN 3000) Special orders also catered for.

Designed to retro fit into existing engineering works as well as new builds, endless options for securing the gates means there's always a penstock to suit your specific need.

Excellence in sealing ensures permanent tightness & ongoing low abrasion. In common with all products distributed by Stone Food Machinery Ltd. Penstocks.de is also low maintenance and proven to stand the test of time.

All enquiries for Penstock Gates and Actuators will be dealt with quickly and accurately. All quotations are accompanied by individualised scaled drawings. Stone Food Machinery Ltd. is delighted to announce that EPS have recently become their first Irish customer for Penstocks since taking on the distributorship of Penstocks.de.

Other products specifically catering for the environmental market in the Stone Food Machinery portfolio include; Meva Inlet Screens, Screw Wash Presses, Spiral & Hydraulic Presses, Sludge Thickeners, Odour Control. Volute Sludge Dehydrator & the Fuzzy Filter Tertiary Water Treatment System
