

## Bison Continuous Polymer System CPS

Bison CPS is a patented design that mixes and stores powder polymer solution continuously through vertical make up technology. This enables the use of one tank thus doubling the capacity compared to a same sized two tank system. CPS is delivered with or without control panel, powder handling, dosing pumps.

- Compact, Automatic, Hygienic, CE approved
- Patented vertical make up technology
- Polywet PPW ensures homogenous active solution
- Entirely from thick stainless steel incl stainless full flow valves & pipes
- Flexible company highly experienced in design engineering, sludge treatment. Extensive knowledge on chemicals. Complete in house laboratory.

## Bison Continuous Polymer System CPS

	CPS 2	CPS 6	CPS 12	CPS 25
Tank volume l	2000	6000	12000	25000
Capacity kg/h *	7	17	32	70
L	1500	2000	2900	3000
W	1500	2000	2900	3000
H	2800	3300	4100	5100

\*Approximate data at 0,3% concentration, measures in mm
